## SHORT-TERM NON-DEGREE CHINA STUDY PROGRAM

Xi'an International Studies University (XISU) was one of the earliest four national universities specialized in foreign language teaching in China. After over 65 years, the university has developed into one of the national premium universities in the field of humanity, foreign language teaching and international studies. Situated in the prime location of the ancient capital of China, the university is committed to the teaching and learning of Chinese language and culture to domestic and international students.

The School of Chinese Studies began to offer Chinese learning programs in the 1970s and was one of the earliest institutions of higher learning and research in China for such programs. Taking advantages of the cultural assets of the ancient capital city, Xi'an, the school incorporates Chinese learning classes with field trips to the world-renowned museums, cultural and historic sites. Over the last 40 years, more than 12,500 international students have graduated from the school and the teaching quality has been recognized not only by the Ministry of Education of China but also by thousands of international students who are working with the knowledge gained from the school. Now, it is the only authorized HSK Testing Center (Chinese Efficiency Test) in northwest China.

Besides offering degree programs in Chinese language teaching, the school also provides customized non-degree programs of different types. We sincerely welcome students from all over the world to XISU.

- ❶ Xi'an was the starting point of the ancient Silk Road.
- ❷ Xi'an was the ancient capital for thirteen dynasties.

## SHORT-TERM NON-DEGREE CHINA STUDY PROGRAM

XISU offers regular short-term programs in collaboration with many foreign universities and educational institutions on annual basis in the forms of summer or winter camps through Confucius Headquarters/Hanban. We also offer tailored short-term credit courses for universities from Asia, Europe, America, Africa and the Oceania areas. The content of the tailored program can be planned and adjusted in accordance with mutual negotiation in terms of cooperation, study period, target language, and the curricula. Normally, every 36 hours account for 3 credits according to the university academic system. Participants accomplishing required course hours and tasks will be credited. We offer two credits on Chinese Culture for all program participants (minimum two weeks) who attend the lectures, cultural activities and field trips. One more credit will be honored to those who turn in a course essay or take one HSK (Chinese Efficiency Test) test.

## SHORT-TERM NON-DEGREE CHINESE COURSES
